

Do you have a child involved in the juvenile or adult criminal justice system?

Do you know someone who has a child involved in the juvenile or criminal justice system?

Do you believe **ALL** children deserve options and opportunities?

Would you like to connect to other families facing similar issues, in your state?

Then the National Parent Caucus (NPC) may be for you!

NATIONAL PARENT CAUCUS

The NPC is a group of **families and our allies** from all across the country that come together for support, information and guidance to reform the systems of “injustice” that have abused, neglected and blamed our children for society’s failures. We believe that **together** we can empower ourselves and each other and reform “systems” that seek to destroy our children, families and our communities.

We gather by phone the first **Thursday** of each month. For more information about the calls and to have your name added to our growing list, please contact Shanta’ Gray at sgray@cfyj.org or by phone at **(202) 558-3580**.
