

May 14, 2018

The Honorable Tom Cole
Chairman
Subcommittee on Labor, Health and Human
Services and Education
2467 Rayburn House Office Building
Washington, DC 20515

The Honorable Rosa DeLauro
Ranking Member
Subcommittee on Labor, Health and Human
Services and Education
2413 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

The 139 undersigned organizations write in support of robust funding for the Statewide Family Engagement Centers (SFECs) grant program and respectfully request no less than its authorized level of \$10 million—in the FY 2019 Labor, Health and Human Services, Education and Related Agencies (L-HHS-ED) appropriations bill. This FY2019 request comes after you and your Senate counterparts saw fit to provide \$10 million for this program in the L-HHS-ED portion of Public Law 115-141. We very much appreciate the Subcommittee’s leadership in making this 2018 investment and urge continued funding for this program in FY2019. A bipartisan group of [54 Representatives](#) have also shown their support for SFECs by signing on to a Dear Colleague letter to fund the program at its authorized level of \$10 million.

The SFECs grant program is one of the few non-categorical programs maintained in the Every Student Succeeds Act (ESSA). Both the inclusion of SFECs in ESSA and the \$10 million appropriation in FY2018 is evidence of Congress’ recognition of the importance of parent and family engagement. The SFECs program builds capacity for states and school districts to systematically embed family engagement policies and practices in their education plans. SFECs will also provide much needed professional development for educators and school leaders to strengthen school-family partnerships and parent-teacher relationships. Additionally, the SFEC program provides direct services to families to give them the tools to effectively work with their child’s school to improve their child’s academic outcomes and overall well-being.

With ESSA implementation underway, states, school districts, school leaders and parents need the SFEC program to effectively engage parents as stakeholders and successfully implement the law as Congress intended. Research shows that family engagement advances the academic and developmental progress of children and drives student achievement. Our organizations believe that an investment in SFECs is critical to ensuring that families are meaningfully supported and engaged in their child’s education, so they can support our nation’s students in becoming fully prepared for higher education, workforce and career opportunities in the 21st century.

Thank you for your consideration of our request and we look forward to working with you to ensure this important program receives funding in FY 2019.

Sincerely,
